

Gain Some Leverage.

DFC-364 Disposable Film Cutter

Turn handle over to cut tape between box flaps safely and effortlessly. Just poke through then pull in the direction of cut.

Place thumb on the side grips to firmly guide your cut downward. The tool angle and ultra sharp blade maintain optimum cutting position for cutting shrink wrap from boxes and pallets.

- Eliminate loose blades from the workplace
- Cut shrink wrap, plastic strapping, tape and box flaps
- Long-lasting stainless steel blade
- Economical
- Easy to use

Non-removable stainless steel blade

Attach to lanyard or string for safe keeping
